

Please review your decision to allow Sinclair Media to air a unmistakably biased and unproven program that could greatly effect the outcome of this important election. This 'special' is not news, merely a thinly veiled attempt to 'ape' it, not unlike many sleazy infomercials that have already called in question the seperation of news and 'profit'. The action represents a clear example of the need to decentralize media ownership and echos many nefarious historic examples of media manipulation to effect the will of the people in choosing their own government. Thank you.
